A Commitment to Sustainability

By signing this document, I vow to demonstrate my dedication to preserving the environment. To further display my loyalty to being a green student at SDSU, I will wear the commitment wristband. To continue informing myself, I will read the AS Green Love newsletter and share my knowledge with others. With my signature, I affirm my commitment to, at minimum, the three environmental standards listed below:

... *I will* recycle ALL products that are capable of being reprocessed (paper, cardboard, plastics, aluminum and glass).

... *I will* ban my consumption of plastic bags and transition to reusable bags.

... *I will*, whenever possible, stop buying bottled water and use a refillable container.
